

Ranger wants everyone to help control the mosquito population in Fayetteville.

Overgrown grass and weeds create a place for mosquitoes to hide during the day. If your weeds touch your knees, mow your yard please!

Overgrown conditions create a canopy where mosquitoes thrive. It's not feasible to remove the canopy, but we can keep our property maintained.

Keep your swimming pools maintained. Swimming pools and wading pools should be emptied or properly covered when not in use.

Keep Fayetteville Clean and Green.
Junk collects water, which is a breeding ground for mosquitoes.

Mosquitoes are responsible for causing more human suffering than any other animal. They carry many diseases, including: Malaria, West Nile Virus, and Yellow Fever.

Did You Know ???

CASE #12

Stagnant Stanley

Stanley has stagnant puddles and pools of water all around his yard.

Stagnant water can be a health risk, and is home for mosquitoes, gnats, flies and bacteria.
